

# Alaskan Way Viaduct and Seawall Replacement Project

## Draft EIS Comment Form

Please use this form to give us comments on the Draft Environmental Impact Statement (Draft EIS) for the Alaskan Way Viaduct and Seawall Replacement Project. The comments you make will become part of the public record for this project. Your thoughts will help decision makers develop a preferred alternative. Responses to your comments will be provided in the Final EIS.

**Contact Information:** At a minimum, please provide your name and Zip Code. If you would like to be added to the project mailing list, please fill out the rest of the contact information and check the box below.

Name: Elvina Downs

Organization/Membership Affiliation (optional): \_\_\_\_\_

Address: \_\_\_\_\_

City: \_\_\_\_\_ State: \_\_\_\_\_ Zip: 98146

E-mail: \_\_\_\_\_

☐ Check here if you would like to be added to the project mailing list.

### 1. Choose a topic:

- |  |  |  |
|--|--|--|
| <input type="checkbox"/> Overall Project               | <input type="checkbox"/> Tunnel Alternative        | <input type="checkbox"/> Construction Impacts and Mitigation |
| <input type="checkbox"/> All of the Alternatives       | <input type="checkbox"/> Bypass Tunnel Alternative | <input type="checkbox"/> Other                               |
| <input type="checkbox"/> Rebuild Alternative           | <input type="checkbox"/> Surface Alternative       |  |
| <input checked="" type="checkbox"/> Aerial Alternative | <input type="checkbox"/> Seawall                   |  |

What are your comments about the project?

**I-157-001** Aerial Alternative seems the best considering cost, disruption

**I-157-002** and loss of parking. Is it going to a public vote? If so, who will be able to vote?

(Please use additional paper if you need further comment space)

### I-157-001

FHWA, WSDOT, and the City of Seattle appreciate receiving your comments on the Aerial Alternative. Elements of the Rebuild and Aerial Alternatives were incorporated into the Elevated Structure Alternative to meet today's safety standards while minimizing the effects of a wider structure. This alternative was analyzed in the 2006 Supplemental Draft EIS, and the design was refined in the Final EIS. Because the project has evolved since comments were submitted in 2004, please refer to the Final EIS for current information.

### I-157-002

No vote occurred for the Aerial Alternative. However, there was a vote in 2007 on versions of the Elevated Structure and Cut-and-Cover Alternatives. Seattle citizens voted down both versions that were on the ballot.
