I-303-001 What are your comments about the project?

I think its wrong to include unthought-out improvements north of Battery St Tunnel in this process. We need to cut this down so we can afford to get it going. Mercer/Thomas St improvements belong in S. Lake Union Plan.

The project alternatives have been changed and refined since the publication of the Draft EIS in 2004. Please see the Final EIS for information about how each build alternative addresses improvements to the area north of the Battery Street Tunnel.
