I am a homeowner of a waterfront
condo unit in Waterfront Landings. I
am appalled to see what would hap-
pen to my waterfront view, with
a bridge built over, above, and in
front of my apartment - this for
4 to 6 years!! At age 80, I would
never have my view again! The
whole purpose of my purchase in
1998 was for the view of the harbor.
Up to now, the value of my apt. has
appreciated sharply. With the awful
proposal of the "Battery St Flyover
Detour" my beautiful waterfront
property is ruined!!

After the 2004 Draft EIS was issued, numerous comments were received relating to the visual impacts and other negative effects of the Battery Street Flyover Detour. As the design plans for the Cut-and-Cover Tunnel and the Elevated Structure Alternatives evolved, the Battery Street Flyover Detour was eliminated.
