Stupid idea! [REDACTED]
[REDACTED]
You guys are building for the future? For what depopulation??
A 2 lane underground clostraphobic nightmare?! [REDACTED]
[REDACTED]
Were supposed to build bigger and faster for the future it's very simple and
The viaduct should have been replaced with another viaduct!!
Simple.
Not only is the viaduct fine except for it's condition it's scenic and most
people enjoy driving above the city!

You people are destroying our city!
Can't afford to park downtown!
There gonna boot your car now, what's next?!!
[REDACTED]
[REDACTED]
Rebuild the viaduct how it is!

FHWA, WSDOT, and the City of Seattle appreciate receiving your comments on the Rebuild Alternative. After studying several retrofitting concepts, the lead agencies' found that rebuilding the viaduct would not be a cost-effective, long-term solution that adequately addresses the risks to public safety and the weakened state of the viaduct. Elements of the Rebuild and Aerial Alternatives were incorporated into the Elevated Structure Alternative, which was analyzed in the 2006 Supplemental Draft EIS and the Final EIS. Because the project has evolved since comments were submitted in 2004, please refer to the Final EIS for current information.
