Subject: Please get the tunnel going

I-136-001

I was unable to attend recent meetings with regards to the bored tunnel alternative. I am very supportive of the tunnel for the following reasons:

1. North and south bound hwy 99 traffic is minimally impacted during construction
2. The tunnel not only allows the waterfront to be re-worked as a more people friendly area it also provides the very much needed additional option for north south traffic to simply I-5
3. We need to get rid of the viaduct and not keep patching something that is old = past it's prime.

Love your updates and the great videos.
