Comments:

**I-0459-001** | I support the Pacific Street Interchange Plan. Montlake bridge is absolutely a bottle neck for going to University via 23rd Street, 1520 to City Center. Unless some alternative rout to solve the traffic problem with any "new 1520" interchange to address the Montlake bridge problem, the traffic remains to be a hindrance to the University area.

**I-0459-001**

**Comment Summary:**

Pacific Street Interchange Option

**Response:**

See Section 1.2 of the 2006 Draft EIS Comment Response Report.
