Comments:

I-0481-001 | I believe we should go for the 6-lane alternative, and actually think that will have too little capacity. We always plan for the traffic levels of the past, and lowball the cost. We might as well get it right now, rather than setting us up for congestion and paying for earlier future replacement.

I-0481-001

Comment Summary:

6-Lane Alternative

Response:

See Section 1.2 of the 2006 Draft EIS Comment Response Report.
