I support the Pacific Interchange Option.

This is the best way to eliminate the Montlake Bridge bottleneck, and to provide transit connections with the Sound Transit light rail system, and to make transit service convenient for persons traveling to the UW. The bridge/interchange across Union Bay also provides a direct connection from the Burke Gilman Trail to the pedestrian/bike lanes on the rebuilt SR 520 bridge.

I-0581-002

I also favor a 4 lane bridge that provides just 1 (one!) general purpose lane in each direction plus 1 HOV lane in each direction.
