Hello - May I recommend one simple, elegant solution to the 520 bridge rebuild ideas?.
BUILD A TUNNEL! If there is one place where a tunnel is a perfect solution, it's as a replacement for the 520 Bridge. We would protect the Arboretum and its fantastic wildlife, get back scenic Lake Washington views, and not have to worry about developers grabbing real estate. Why isn't this being proposed? Bottom line, in the face of global warming and limited oil, why are we even talking about expanding roads for more cars?? Let's start thinking out of the box, people.
