Comment:

As a long time Montlake resident I have seen many proposals for bridge alternatives. The Pacific Interchange Plan, is the first porposal that seems to work. I stongly support this plan and urge the State to select this option.

I also want to add that I stongly opose the "Base_Six" plan. I feel it will add to the problems we have been living with for many years.

Please support The Pacific Interchange Plan!!! Thank you.
