Concerning the proposed bike paths on the west end of the bridge: The Madison Park, Washington Park neighborhoods have voted consistently for more than 20 years against such a plan. The bike path belongs along the boulevards - not on the neighborhood streets. Someday there will be one through the Arboretum where it is desperately needed.

In the meantime, let it go N.W. off the proposed bridge to connect with the Burke Gilman Trail — which someday will cross the canal & join the Lake Union bike paths.

Let's all work for the arboretum bike trail. Why doesn't the Cascade Bike Coalition offer to fund such a trail?
