Dear sirs,

I-1264-001 I'm writing to support the Pacific Street Interchange option for SR520. As a daily commuter over this route, I know that the current situation leaves many commuters, including myself, faced with frequent, unpredictable hour-long bus rides from Nintendo and Microsoft to the Montlake station. After reviewing the various solutions proposed for this project, I feel that the Pacific Street Interchange option will best solve the issues facing commuters on this route.

I would like to voice my full support for the Pacific Street Interchange option over the other proposals.

Thank you,
Arthur Dubman
