Comments:

**I-0425-001** | I support at least the six lane option with the connection to Husky Stadium. As well as implementing a toll both ways. But, it should be whole dollar amounts, don't mess around with loose change AND it should be the same ammount anytime of day. Personnaly I believe all the bridges should have a toll on them, not just 520 but also I90, I5, The Narrows bridge as well as the hose on the peninsula. Everyone driveing on them should pay for them. Thanks, Mike
