

## SR 520 Bridge Replacement and HOV Program

I-5 to Medina: Bridge Replacement and HOV Project

### Supplemental Draft EIS Environmental Hearing Comment Form – Feb. 23, 2010

Welcome to the environmental hearing for the SR 520, I-5 to Medina: Bridge Replacement and HOV Project Supplemental Draft Environmental Impact Statement (EIS). Please use this form to share your comments on the content provided in the Supplemental Draft EIS document. WSDOT will consider all comments received between Jan. 22 and April 15, 2010 in making its final decision in the environmental review process. Thank you for your comments.

You can provide comments through one of the following methods:

- **Complete this form** and place it in one of the comment boxes during the meeting. Please write clearly.
- **Mail** your comments to Jenifer Young, SR 520, I-5 to Medina Environmental Manager, Washington State Department of Transportation, 600 Stewart Street, Suite 520, Seattle, WA 98101.
- **E-mail** your comments to SR520Bridge\_SDEIS@wsdot.wa.gov.
- **Visit the Web page** at [www.wsdot.wa.gov/projects/SR520Bridge](http://www.wsdot.wa.gov/projects/SR520Bridge).

These comments will become part of the public record for the SR 520, I-5 to Medina: Bridge Replacement and HOV Project Supplemental Draft Environmental Impact Statement. Personal information is voluntary and will become part of the public record if provided. The Washington State Department of Transportation is a public agency and is subject to the State of Washington's Public Records Act (RCW 42.56). Therefore, meeting comments may be made available to anyone requesting them for non-commercial purposes.

Do you have any comments on the Bridge Replacement and HOV Project Supplemental Draft Environmental Impact Statement?

I-056-001

Scrap At options. Preserve transit  
connectivity. Protect the arboretum.

I-056-002

Lanes for land planning for light rail transit only

I-056-003

no 6 lanes

#### I-056-001

Comment noted. WSDOT received a number of comments in support of and in opposition to Options A, K, and L and the associated suboptions. These opinions are summarized in the Supplemental Draft Environmental Impact Statement Summary of Comments (WSDOT, April 2010), available at <http://www.wsdot.wa.gov/Projects/SR520Bridge/SDEIS.htm>.

Since publication of the SDEIS, WSDOT has identified a Preferred Alternative, which is similar to Option A but with a number of design refinements that would improve mobility and safety while reducing negative effects. Chapter 2 of the Final EIS describes the Preferred Alternative and Chapters 5 and 6 describe its environmental effects.

#### I-056-002

Section 2.4 in the Final EIS explains why initial implementation of light rail transit on SR 520 is not planned. The decision to locate Sound Transit's initial east-west light rail transit corridor on I-90 rather than SR 520 has been made through extensive regional deliberation. Table 2-2 of the Final EIS illustrates the history of regional decision making on east-west mass transit routes, which began in 1967 when the Comprehensive Public Transportation Plan for the Seattle Metropolitan Area identified a rail corridor from Seattle to Bellevue and Redmond on I-90. Subsequent studies and agreements over the next 40 years have all continued to identify I-90 as the preferred rail transit corridor, with predicted ridership similar to or more than SR 520 and substantially lower costs and environmental effects. However, through coordination with Sound Transit, WSDOT has designed the Preferred Alternative to have enhanced compatibility with potential future light rail compared to the SDEIS design options. Chapter 2 of the Final EIS provides further discussion.

The completion of the HOV lanes on the SR 520 corridor with the SR
