

## Supplemental Draft EIS Environmental Hearing Comment Form – Feb. 23, 2010

Welcome to the environmental hearing for the SR 520, I-5 to Medina: Bridge Replacement and HOV Project Supplemental Draft Environmental Impact Statement (EIS). Please use this form to share your comments on the content provided in the Supplemental Draft EIS document. WSDOT will consider all comments received between Jan. 22 and April 15, 2010 in making its final decision in the environmental review process. Thank you for your comments.

You can provide comments through one of the following methods:

- **Complete this form** and place it in one of the comment boxes during the meeting. Please write clearly.
- **Mail** your comments to Jenifer Young, SR 520, I-5 to Medina Environmental Manager, Washington State Department of Transportation, 600 Stewart Street, Suite 520, Seattle, WA 98101.
- **E-mail** your comments to [SR520Bridge\\_SDEIS@wsdot.wa.gov](mailto:SR520Bridge_SDEIS@wsdot.wa.gov).
- **Visit the Web page** at [www.wsdot.wa.gov/projects/SR520Bridge](http://www.wsdot.wa.gov/projects/SR520Bridge).

These comments will become part of the public record for the SR 520, I-5 to Medina: Bridge Replacement and HOV Project Supplemental Draft Environmental Impact Statement. Personal information is voluntary and will become part of the public record if provided. The Washington State Department of Transportation is a public agency and is subject to the State of Washington's Public Records Act (RCW 42.56). Therefore, meeting comments may be made available to anyone requesting them for non-commercial purposes.

Do you have any comments on the Bridge Replacement and HOV Project Supplemental Draft Environmental Impact Statement?

THIS BRIDGE NEEDS TO BE RECONFIGURED  
TO PROVIDE MORE RAPID TRANSIT - NOT  
LOSS. THE ENVIRONMENTAL STATEMENT  
DOES NOT GO NEARLY FAR ENOUGH IN AVOIDING  
LATER RECONFIGURATION AND REMEDIATION

### I-065-001

The SR 520, I-5 to Medina project would result in immediate benefits for transit speed and reliability in the corridor by providing high-occupancy vehicle (HOV) lanes across the floating bridge and better HOV connections at the Montlake and I-5 interchanges. The HOV lanes would allow for the near-term implementation of bus rapid transit, as called for in the SR 520 High-Capacity Transit Plan.

Section 2.4 in the Final EIS explains why initial implementation of light rail transit on SR 520 is not planned. The decision to locate Sound Transit's initial east-west light rail transit corridor on I-90 rather than SR 520 has been made through extensive regional deliberation (see Table 2-2 of the Final EIS). However, through coordination with Sound Transit, WSDOT has designed the Preferred Alternative to have enhanced compatibility with potential future light rail compared to the SDEIS design options. Light rail could be accommodated either by converting the HOV lanes for rail use or by adding light-rail only lanes. Both approaches would require the addition of supplemental floating bridge pontoons to support the additional weight of light rail, should the regional decision to do so be made and funded. Such a decision would need to be planned and programmed by regional land use and transit agencies, funded by a public vote, and evaluated in its own environmental analysis.
