Subject: 520 Bridge

I-092-001

I live in Montlake across the boulevard from I-520.

\* Keep the approved plan and get the bridge built.  
( Rail could be ok but needs to be part of transit lanes [ ? ] - but this seems difficult to find a location with enough space and I question how it would be connected to other rail systems other than over in Ballard ).

I-092-002

**\* We need access to and from I - 520 from the North and the South so that we will accomplish getting to and from the East side , I - 405 , and Redmond - Duval as we are now able to do.**

Thank you for helping .
