

SR 520, I-5 to Medina: Supplemental Draft EIS Comment Form

Please use this form to share your comments on the content provided in the Supplemental Draft Environmental Impact Statement document. WSDOT will consider all comments received between Jan. 22 and April 15, 2010 in making its final decision in the environmental review process. Thank you for your comments.

You can provide comments using one of the following methods:

- Complete this form.
- Mail your comments to Jenifer Young, SDEIS Environmental Manager, Washington State Department of Transportation, 600 Stewart Street, Suite 520, Seattle, WA 98101.
- E-mail your comments to SR520Bridge_SDEIS@wsdot.wa.gov.
- Speak to a court reporter at an environmental hearing scheduled for 5 – 7 p.m., Feb. 23, at Lake Union Park Naval Reserve Building, 860 Terry Ave. N., Seattle.

7. Do you have any comments on the SR 520, I-5 to Medina: Bridge Replacement and HOV Project Supplemental Draft Environmental Impact Statement?

I-248-001

I think we need to have light rail on 520, not more cars. Adding lanes to the bridge without adding light rail will only make more people drive. Right now I have a car and I still choose to take the bus to work even though it takes me twice as long.

These comments will become part of the public record for the SR 520, I-5 to Medina: Bridge Replacement and HOV Project Supplemental Draft Environmental Impact Statement. Personal information is voluntary and will become part of the public record if provided. The Washington State Department of Transportation is a public agency and is subject to the State of Washington's Public Records Act (RCW 42.56). Therefore, comments may be made available to anyone requesting them for non-commercial purposes.

I-248-001

The SR 520, I-5 to Medina project would complete the HOV lane system in the corridor, improving reliability and efficiency for transit and carpools, but would not add general-purpose lanes. Thus, the project is aligned with improving the overall efficiency of the transportation system by creating incentives for people to choose an alternative to driving alone. Section 2.4 in the Final EIS explains why initial implementation of light rail transit on SR 520 is not planned. Section 2.4 also explains how the SR 520, I-5 to Medina project can accommodate future high capacity transit, such as proposed bus rapid transit or potential future light rail.
