What are your comments about the Project?

I-082-001

Too much money, too much risk, too little benefit for Seattle and region.
 Please spend this money on a street-level response for Seattle. That makes sense.

Your answers to the questions below will let the agencies know if the Supplemental Draft EIS format was helpful. Your answers

to these questions are not part of the EIS process and they will not receive a response.

1. Is this the first EIS you have read?
 Yes No

4. Did the graphics help make the Supplemental Draft EIS easier to review and understand?
 Yes No

2. Have you previously participated in public meetings/comment periods related to the AWW project?
 Yes No

5. Did you refer to the technical appendices?
 Yes No

3. Did you find this Supplemental Draft EIS format easy to understand?
 Yes No Why or why not?

6. What did or didn't you find helpful when reading this Supplemental Draft EIS?

Chapter 2, Alternatives Development, of the Final EIS describes the project's history and alternatives evaluated prior to the 2010 Supplemental Draft EIS. The 2004 Draft EIS included evaluation of the Surface Alternative. This alternative was eliminated because it reduced roadway capacity and didn't meet the project's purpose as identified in the 2004 Draft EIS.

After the purpose and need statement was updated in 2009, design concepts were reevaluated and screened to determine the alternatives to be evaluated in the 2010 Supplemental Draft EIS. Again, the Surface Alternative was screened out because it did not meet the purpose and need for the project. Chapter 3 in the 2010 Supplemental Draft EIS provides the reasons why this alternative was eliminated from further consideration.
