Comment or Question:

P-0038-001 We need plenty of pedestrian and bicycle access with decent views. We need plenty of room for mass transit. We need this regardless of where the crossing is. We need it regardless of what is on each side of the crossing at this time. We need vision.

P-0038-001

With the LPA, new bridges will replace the existing Interstate Bridges to carry I-5 traffic, light rail, pedestrians and bicyclists across the Columbia River. Light rail will extend from the Expo Center MAX Station in Portland to a station and park and ride at Clark College in Vancouver. Pedestrians and bicyclists would travel along a wider and safer path than exists today.

For a more detailed description of highway, transit, and bicycle and pedestrian improvements associated with the LPA, see Chapter 2 of the FEIS.
