Comment or Question:

P-0416-001 | Our household welcomes any changes that can improve our community in an enviromental, and safer way.

P-0416-001

Thank you for taking the time to submit your comments on the DEIS. The LPA, as described in the FEIS, improves mobility throughout the project area for many miles, while simultaneously improving water quality and lowering greenhouse gas emissions compared to the No-Build Alternative. A more detailed discussion of the environmental effects and safety improvements provided by the LPA can be found in Chapter 3 of the FEIS.
