Comment or Question:

P-0428-001 I am looking at a list of property acquisitions along Main Street. My office is not listed specifically, but two "Office/Professional/Health Care, address unavailable" properties are listed, one with and one without displacement. I can't tell if one (or both) of these are my property. Since properties on either side of me and across the street from me are affected, I would be surprised if I'm not, too.

P-0428-001

Per the selection of the Clark College transit terminus as part of the Locally Preferred Alternative, light rail will not be traveling on Main Street, and therefore will not require any property acquisitions along this street.
